Why Sponsor GlobusWorld?

Now in its 8th year, the GlobusWorld conference brings together a unique mix of research computing managers, HPC systems administrators, scientists and developers to discuss experiences and best practices for Globus, the leading system for managing the research data lifecycle. The conference attracts over 100 attendees from universities, labs, supercomputing centers and companies, giving sponsors a valuable opportunity to engage with a highly targeted audience in an intimate setting.

The GlobusWorld agenda includes tutorials, presentations, demos and panels designed to deliver practical advice on how to manage research data at scale—as well as open time for informal discussions and Q&A. Attendees come to GlobusWorld for the chance to connect with, and learn from, their research computing colleagues who are building and using cutting-edge data management solutions, and to get details on roadmaps and new capabilities from Globus and our partners.

Exhibits include a draped 6ft or cocktail table (depending on your sponsorship level), WiFi network access, two chairs and a standard 120V power strip.
